

### THE HEART OF THE SOUND

In a land where image reigns as king  
And ones outward form is everything  
I look out farther than I can see  
And become more than I'd ever be  
As the sun and moon are new and old  
So my love is telling what is told  
For I am the dreamer of the dreams  
Of the world forever so it seems  
There's a love that I've found  
In the heart of the sound  
Though the dancer moves across the floor  
The expression is exterior  
And the painter paints for all to see  
But it cannot show the heart in me  
Now the music gives us grace in time  
While the words so warm our hearts with rhyme  
Just as if they always did belong  
I combine the Two within a song  
There's a love that I've found  
In the heart of the sound  
By design line by line  
It's a world I define  
In the sound all around  
There's a love waiting there to be found  
I compare the sun and stars with flair  
To the birth of spring and all things rare  
And a face to launch a thousand ships  
With this dead wood and these living lips  
I will say all that I have to say  
Until time will come take me away  
For I am the dreamer of the dreams  
Of the world forever so it seems  
Yes I am the dreamer of the dreams  
Of the world forever so it seems

### THE HEART IN YOU

Of these songs I sing to you  
These tales of want and wealth  
Stories told of heroes bold  
Tales of love and life itself  
Often times the song it rhymes  
But does the word get through  
Does it touch the heart inside of you  
There are times we dream we all have dreams  
We wish upon a star

Then struggle to allow the dream  
To be a part of who we are  
And wonder if the dream  
Is really worthy to pursue  
Does it touch the heart inside of you  
The heart in you  
Hold on tightly to the dream  
Through the dark and unforeseen  
Make it everything you do  
Let it be the heart in you  
We all want love that endless love  
To touch our very soul  
The kind of love that comes along  
To fill our hearts and make us whole  
But how we know this love will grow  
Or if our love is true  
Does it touch the heart inside of you  
Does it touch the heart inside of you  
Does it touch the heart inside of you  
The heart in you

#### AS ONE

The clouds that form on high above  
Grace this planet that we love  
With raindrops that fall down to earth  
And start the process of all birth  
They come to us so pure and clean  
And make this garden strong and green  
That's the way it should be  
Forever in eternity  
As one As one  
The sun it shines about this place  
And holds us in its warm embrace  
Which will melt the mountain snow  
And help the plants and flowers grow  
The honey bee's then pollinate  
Spreading life to all things great  
Everything big and small  
And we grow one and all  
As one As one As one As one  
Heed the calling and life goes on  
Life goes on and on and on and on  
So treat with care this earth we're on  
One day it will all be gone  
Everything that you can see  
And with it all humanity  
So please be strong and make a stand  
The future now is in your hands  
The world is one as you can see  
We need to act accordingly  
As one As one As one As one

As one As one As one As one

### I CAN GO

I light the fire flame ever higher  
I come to see what you bring to me  
Here in my heart all the love from the start  
That I know how to show  
All my work to one forming what's to come  
As you burn so bright well into the night  
Hours that did frame all that you then became  
Now you shine child of mine  
You have my heart as you did from the start  
As you do ever still always will  
And then forever so  
I take a look around I'm aware  
There is solid ground everywhere  
I have to say I thought time slipped away  
I was wrong I've been strong  
There's a new day chased the darkness away  
Now that my work is done I have won  
And I have come to know  
I can go so I can go so I can go so I can go

### ETERNAL NOW

I believe we come from somewhere timeless  
Somewhere far into the future  
A place that always has been always will be  
Somewhere far into the past  
And so I insist time does not exist  
An illusion  
All there is somehow is eternal now  
Everywhere  
Everything with form one day will transform  
So endowed with grace take its proper place  
How long must I wait for an answer  
How far do I go to where you are  
How long How long  
We begin our journey in this life form  
With a nature pure and simple  
An innocence that leads us to do good things  
Without any thought of gain  
Touched by earthy things and the pain it brings

Dissolution  
The more we are exposed  
The more the darkness grows  
In us all  
But the light of sun is clear shadows disappear  
The higher that it climbs  
The more that its light shines  
How long must I wait for an answer  
How far do I go to where you are  
How long How long How long How long  
Tell me of the wonders that await me  
When I reach my destination  
You can look into my heart  
But I can only see before my eyes  
Though you don't appear I can feel you near  
From a distance  
I will not delay if you show me the way  
To where you are  
Two things that I know I've a ways to go  
If you come to me you can set me free  
How long must I wait for an answer  
How far do I go to where you are  
How long How long How long How long  
How long How long How long How long

#### ODYSSEY OUTRE

Through the longest night  
As the darkest hour lingers endlessly  
Nothing left in sight  
Still we have the power and the eyes to see  
Through the night  
We travel on into the darkness  
Forward on my way  
With no light to guide  
Without even meaning we may ever know  
Just this fire inside  
And our endless dreaming takes us ever so  
Through the night  
We wander on into the darkness  
Forward on our way  
Soon these tired eyes  
And this path we follow will begin to fade  
So onward to the prize  
May it not be hollow struggle not in vain  
Through the night  
We wander on into the darkness  
Forward on our way  
Hold on tight  
Through this everlasting timeless

THE WORLDS A LITTLE COLDER WITHOUT YOU TODAY

Here's a brand new song I want you to play  
It called the worlds a little colder  
Without you today  
It starts in an A moves down to a G  
The saxophone begins as it  
Transposes to a C  
Then muscle up your strength  
And get yourself a well soaked reed  
Cause there's a place that's coming up  
For you to play a lead  
Thoughts are racing in my mind  
Of a place we leave behind  
A place to grow that we know  
From long ago  
And this song is so good  
That you soon would see  
All the angels lining up to sing the harmony  
And the music gods  
They will want in too  
They can be the horn section  
If it's ok with you  
As the sound releases  
And it fills up all the sky  
I'll be singing words of sorrow  
Telling you goodbye  
Thoughts are racing in my mind  
Of the things we leave behind  
A place to grow that we know  
From long ago  
You will play your best lead ever  
Hitting all those notes on high  
So beautiful we all will cry  
We all will try to say goodbye  
Now as this song ends comes to a close  
It will end the very way  
That yourself would have chose  
It will not repeat or even fade away  
But it will end with the thought  
Of something you would say  
Here's a brand new song  
That I would like for you to hear  
I wish that you could play it with me  
I wish you were here

WHERE ARE YOU NOW

The pictures from your youth  
Always make me laugh  
The forty five's stacked  
On your phonograph  
A new bicycle  
Your first pair of ked's  
An Oscar Meyer wiener  
On your wonder bread  
It seems so very far away  
And yet only yesterday  
The very day we put  
A man on the moon  
You were thinking that  
You're leaving there too soon  
And so you did but  
Now you need to know  
All these things weren't  
Very long ago  
There not very far away  
You can have them back today  
Then you came of age  
And you changed the world  
Marching in the street  
With your flags unfurled  
Many good things  
Became real somehow  
Then you disappeared  
Just where are you now  
You're needed here and now today  
Make it real again don't stay  
All alone in your silence  
Far away in your heart  
All alone in your silence  
Far away in your heart  
In your heart In your heart  
In your heart In your heart

SUSAN

When we choose who'll be our partner  
We use the lessons learned in our past  
Best to be open and honest  
So we find someone who will last  
But often times we pick with our passions  
Those endowed in some certain way  
Or ignore all of the warnings  
Believing everything that they say  
As for me none of that matters  
Not the body not even the brain  
Not what they say or how they might say it  
For some reason I'm stuck on the name  
Of Susan I am serious Susan  
Susan one was the city girl  
Tough as nails and head in a whirl  
Susan two was just for a time  
Which it seems was all in my mind  
And for a while it seemed kind of funny  
That it would happen again and again  
Then one day I started to worry  
When Susan nine became Susan ten  
So now I find this wonderful woman  
I'm so in love oh what can I do  
Her names not Suz and it's not Susana  
It's not Sue Ann it's not even Sue  
It's Susan I am serious Susan  
What do I have with this name  
It's not something I can explain  
For some reason it's always the same  
It's Susan it's always Susan  
It's always Susan  
She's the best when were together  
It's as if were one and the same  
In every way she's really special  
Except of course for her first name  
If it ends my heart will be broken  
But someone else will soon come my way  
I'll ask her name but before she can answer  
I know exactly what she will say  
Susan my name is Susan  
Can you remember it Susan  
S-U-S-A-N Susan  
SSSSSS Susan  
Tell everybody its Susan  
Tell everybody its Susan  
Tell everybody its Susan  
Tell everybody its Susan

## I AM DAD

I am now a man but at the time I was a boy  
I was lost and I was lonely  
And then you became my joy  
Sooner than I figured I had to become a man  
And though I may not be perfect  
I sure did the best I can  
Got my act together and then  
Somehow pulled it through  
Helped along the way by knowing  
How much I love you  
I made up bedtime stories  
When you went to sleep at night  
And when done I made sure  
I left on the closet light  
Through the years I was the one  
To always stay so calm  
Until the day some boy came by  
To take you to the prom  
The hardest part of all it seems  
Was getting you through school  
That or maybe always having  
To hide all my cool  
I'm dad  
You can see my picture on the wall  
Stronger than the monsters in the hall  
I am so very glad I'm dad  
Always and forever  
That's the way that it will be  
But that's ok it brings out  
All the very best in me  
Looking at the years gone by  
Since you were just a child  
I thank my lucky stars  
You never were a girl gone wild  
Not to say at all that there weren't  
Times that you were bad  
I should thank my lucky stars  
That I am not a dad gone mad  
I see myself inside you  
Every time I see you smile  
And one day I'll be the one  
To walk you down the aisle  
I'm dad  
You can see my picture on the wall  
Stronger than the monsters in the hall  
I am so very glad I'm dad  
You can see my picture on the wall  
Stronger than the monsters in the hall  
There to pick you up when you should fall  
Always and forever when you call my name  
I am so glad I'm dad

### CAN YOU SLEEP TONIGHT

On this cold dark night far from home  
You may feel all alone  
Close your eyes think of me  
In your heart is where I'll be  
There's a place you will see  
And it's close to me  
You'll be in my arms again  
Ease your pain ease your mind  
Leave this place far behind  
Far away far away to another day  
Sleep in peace alone tonight  
There's a dream that's for you  
It's a dream come true  
You and I again alone  
So can you sleep tonight  
I will sing for you  
Of this place that's in my heart

### CLOUDS

The clouds that pass me by today  
Are darker than I've ever seen them be  
And there are far too many of them up there  
More than I would ever want to see  
There's a storm on the horizon  
Moving ever near to me  
There's a lot of trouble soon to be  
That I can see  
Now the sky gets ever darker  
As the lightning and the Thunder  
Come my way  
And the air gets ever colder as the  
Wind increases much to my dismay  
But I could see this coming I've  
Prepared for such a day  
I'll just pick up my guitar and play  
Cause I'm ok today  
So I'll shout it from the mountain tops  
I'll sing it day and night  
Loud enough for all to hear

Time is of the essence  
We have got to get it right  
And the clouds look ever more severe  
And so near I fear  
So these rolling clouds of time should be  
Reflecting all the brightest shades of white  
But instead they look so ominous  
As they turn daytime quickly into night  
Now the time has come for everyone  
To help do what is right  
I know I will try with all my might  
And I'm alright tonight  
I'm alright tonight  
I'm alright

### DIDN'T WE

Didn't we tell the stories  
Didn't we sing the songs  
On our way to glory in places we belong  
Didn't we learn the hard way  
Reaching for the stars  
Pouring out our hearts in  
Concert halls and bars  
Didn't we go together into that unknown  
Didn't we promise never to go on our own  
Didn't we dream didn't we love  
Didn't we rise above  
Didn't we  
Didn't we  
Born into this nowhere  
Backs against the wall  
Till we found a place where  
We could stand up tall  
Then began this journey  
With nothing but our drive  
Every day was hard but we felt so alive  
Didn't we dream didn't we love  
Didn't we rise above  
Didn't we live enough  
Didn't we hold out for love  
So we band of brothers  
Played on through the years  
Sharing with each other  
The laughter and the tears  
When one day our voice and  
Song begins to fade  
We'll still have each other  
And the memories that we made  
Didn't we dream didn't we love

Didn't we rise above  
Didn't we live enough  
Didn't we hold out for love  
Didn't we dream of love  
Didn't we rise above  
Didn't we live enough  
Didn't we hold out for love  
Didn't we dream enough  
Didn't we live for love

### LIVE WIRE

Here we are again my dear old friend  
It's good to see you smile it's been quite a while  
Tell me once again how have you been  
You haven't changed  
You're still the same and remain  
Strong in your ways just like our days  
Of wine and song  
I can't believe it's been this long  
There's a live wire to ignite and to set alight  
This revived fire burning bright  
In our hearts tonight  
We stood with pride side by side  
Through thick and thin we'd lose and win  
Now those days are gone we both moved on  
But we have today  
And memories of yesterday  
There's a live wire to ignite and to set alight  
This revived fire burning bright  
In our hearts tonight  
There's a live wire to ignite and to set alight  
This revived fire burning bright  
In our hearts tonight  
There's a live wire and a burning fire  
And a heart's desire set alight

### TO THE VERY EDGE

Everybody's running here and there  
In a hurry rushing to nowhere  
The signs are all around but we ignore  
Everything except our want for more  
I know  
In little more than just two hundred years  
We've achieved the worst of all our fears

Damaging the water air and land  
Till the hour of darkness is at hand  
I know I know I know I know  
We can't live like we don't know  
But we all keep trying  
To the very edge we go  
While the world is dying  
As we go about our daily toil  
Kept in our addiction to the oil  
Being told the world will rearrange  
Without any need for lifestyle change  
I know I know I know I know  
We can't live like we don't know  
But we all keep trying  
To the very edge we go  
While the world is dying  
So we go on living  
In the same destructive way  
Like we'll never have to pay  
All take and no giving  
That goes on day after day  
I guess that's the junkie way  
One day there will be a history  
Told by those who own the energy  
As for now they talk of what sustains  
While they make the most off what remains  
I know I know I know I know  
We can't live like we don't know  
But we all keep trying  
To the very edge we go  
While the world is dying  
We can't live like we don't know  
But we all keep trying  
To the very edge we go  
To the very edge we go  
To the very edge we go  
To the very edge we go

#### IF YOU CALL

From the start I was connected  
Consecrated in the lord  
And I did was expected my virtue as reward  
I was blessed I was devoted  
Hands together singing praise  
Asking you for an answer that never came my way  
But if you call I will fall down on my knees  
Ill follow you do you follow me  
So I read the words you've spoken  
Lift my spirit fill my soul  
But the promise so badly broken

Is way out of control  
Through the years the reformation  
Inquisitions lotteries  
And today they rape our children  
And file bankruptcy  
But if you call I will fall down on my knees  
Ill follow you do you follow me  
Using reason and my free will  
I choose not those that deceive  
You tell me in all this chaos how do I believe  
There was a time I did believe it  
Now im searching every day  
I believe I could retrieve it  
If you show me the way  
And if you call I will fall down on my knees  
Ill follow you do you follow me  
Ill follow you do you follow me

### CHINA

Throughout all of history all through time  
Countries came to rule the world in their prime  
Way into antiquity to this day  
All the way from Africa to our USA  
But we are soon to be without and I know how  
We gave it up by selling out the future now is China  
The future of the world is now in China  
The future of the world  
It's not really such a bad thing after all  
We like the food and the checkers there's the wall  
All the ancient dynasties Mao Tse Tung  
Don't forget the tea in China and opium  
I didn't know a thing about it I do now  
I just want to go and shout it out right out loud China  
The future of the world is now in China  
The future of the world  
I was always told that god was on our side  
Turns out he was only with us for the ride  
Funny how our very own supply and demand  
Is how we come to find our future now in the hands  
Of China  
The future of the world is now in China  
The future of the world is now in China  
China China China China

## WHEN WE PLAY

When we play we play for good  
Up and down the neighborhood  
Out at dawn and we'll be gone all day  
All the time we're having fun  
Underneath this great big sun  
And we'll go home again as soon  
As the sun lights up the moon  
'cause  
When we play we play aint no other way  
When we play we play aint no other way  
Sometimes we are far from home  
Doesn't matter where we go  
We find out all kinds of ways to play  
In the water on the sand  
In the air or on the land  
From the mountains to the sea  
Anywhere is good you see  
'cause  
When we play we play aint no other way  
When we play we play just another day  
Every night the sun goes down  
People come from all around  
They just want to dance the night away  
In the crowd you see all kinds  
Leave their problems far behind  
Feels so right it can't be wrong  
So come on now and sing along  
'cause  
When we play we play aint no other way  
When we play we play just another day  
When we play we play aint no other way  
When we play we play just another day

## I AM ME

Born into the heart of darkness  
Ignorance and misery  
The isolating world of sadness  
That takes away your dignity  
One by one I pick up pieces  
Of my former sanity  
Through the years my pain releases  
And I'm improving by degree  
Cause I'm free I am free I am me

Cause I'm free I am free I am me  
This can't hurt me any longer  
As I slowly gain control  
I can feel I'm getting stronger  
The closer that I am to whole  
Cause I'm free I am free I am me  
Cause I'm free I am free I am me

### ALL GOOD THINGS

I hear that all good things  
Come to those who wait  
Before the time is right  
There's no tempting fate  
The more you cultivate  
The more good things are great  
Turmoil through the years  
Leads us all astray  
But if we separate  
All but truth away  
A light will surely shine  
Showing us the way  
So if you're in the dark  
Suffering in pain  
Know how all that grows  
Is nourished by the rain  
Healing hearts regain  
The strength to love again  
Again Again

### IM BACK

I'm back I'm back in black  
Yea I'm back I'm back in black  
Well it took me quite a while  
To find my way here today  
But I am standing tall before  
You all here just to say  
That I'm back I am back  
I'm Bad and bad is back  
Yea I'm bad and bad is back  
I'm as bad as I can be  
I don't want to mislead

I'll getcha getcha something  
That you really don't need  
Cause I'm bad Yea I'm bad  
Well there are three things in this world  
That you can count on for sure  
One of them is dying  
There will never be a cure  
Another one is taxes  
You will pay them every day  
The final thing is knowing  
That you can't keep me away  
I am back Yea I'm back  
I'm back I'm back on track  
Yea I'm back a maniac  
I am looking for some trouble  
If I'm out on the street  
You better lock your doors and windows  
Cause I'm turning up the heat  
I am back Yea I'm back  
I'm back I'm back in black  
Yea I'm back I'm back in black  
Well it took me quite a while  
To find my way here today  
But I am standing tall before  
You all here just to say  
That I'm back Yea I'm back
